

~ Into the Mystic ~

Living Miracles Monastery

experiential retreat weekend

October 27th through the 30th

Join us for an experience beyond words, into a place that ends all seeking.

"Mystic" is the term often used to refer to those who have devoted their lives to the inner experience of God, truth, joy, and peace. It is an experience that is non-dualistic. It is the experience of the Kingdom within, that each one of us has the capacity and grace to experience. And as we go deeper within, we find that each of us has a unique expression—through silence, laughter, song, prayer, or music. The journey now is a commitment to heavenly realms of Love, forgiveness, innocence and Holiness, which are our natural state.

This is a triumphant experience, which can only be described as one of Divinity. This retreat is devoted to the expression of that divinity, and we honor those whom feel called to express and expand through this medium. We would like to encourage you to share your inspiration and expression during this retreat. As the flower was created to bloom, so are we created to open and expand in our natural state of divinity and beauty. Once the journey is undertaken, all subjects will inspire you, and lead you into a world within. This retreat is just another sign post to lead you into the kingdom within—to an experience that is not only possible, but necessary.

Cost: 295 USD - Cost includes: Retreat, food, and lodging
